ZSL | LONDON ZOO

A protected community

London Zoo is committed to providing a safe and secure environment for its staff, visitors, and animals.

ZSL | LONDON ZOO

Unique challenges

The zoo presented a variety of challenges, including the following:

- The sheer size (27,000 sq ft) and openness of the site, including a large perimeter

- High volumes of visitors

- Balancing security and the customer experience

- Effective risk mitigation without being excessive

ZSL | LONDON ZOO

What we have done

Amulet engineers were brought in to install a state-of-the-art CCTV system that:

Utilised the existing IT infrastructure at the zoo

Employed the latest technology

ZSL | LONDON ZOO

# More than just safety and security

In addition to public safety:

Installation of CCTV behind the scenes

New scope for monitoring animal welfare

New scope to monitor animal behaviour for conservation benefits

ZSL | LONDON ZOO

More to come...

What more can we do when we use technology to enhance what is being done?

Enhanced visitor experiences

Enhanced educational benefits
